## World 2023

*Immunohematology*

CE IVD

*Serving YOU since 1985*

Carefully read the instructions on the label and/or the reagents' operating instructions and in the system operating manuals.

*All our products are guaranteed with regard to their properties and qualities indicated in the instructions for use. IBB declines all responsibility if the products are used for other purposes.*

Find the list of current notices on [www.ibb.fr](http://www.ibb.fr)

Founded in 1985, Institut de Biotechnologies Jacques Boy is today a historical and essential player in blood grouping. Based in Reims, 45 minutes from Paris, IBBJ **designs, manufactures and markets Medical Devices for In Vitro Diagnostic (IVD-MD)** manufactured in France, intended for immunohematology and molecular biology.

IBJB focuses its strategy on **innovation** in response to the specific and evolving needs of customers, users and patients. Constantly monitoring scientific progress, its multidisciplinary teams provide a global approach through **applied research and project valorisation** in partnership with both academic structures and manufacturers. By focusing on **synergies** internally and externally, it puts its knowledge and know-how at the service of public health, especially the health of the **pregnant woman and her future child**.

**Certified ISO 13485: 2016** and labeled Bpi Excellence, IBBJ puts confidence at the heart of its activities and dedicates its daily expertise to your own projects and issues.

## Need a reagent or product that does not appear in this catalog?

Eager to respond in the most responsive way to our customers, we focus our efforts on the products most necessary to their daily needs and adapted to their constraints.

That's why our annual catalog and our product range are subject to a **selection and evolution work constantly reviewed**. Doing this, we ensure that medical **laboratories, whatever public or private, distributors and users**, can profit from the **last novelties** and work in a **serene way**, no matter the constantly emerging means and constraints. Our permanent focus remains the **well-being of their patients**.

**So, if you are looking for a product** which does not appear in this catalog (in immunohematology in particular but also in connection with our other product range and expertise), in a packaging not proposed here (in bulk for instance), with specific characteristics (foreign markets), or even if you want to distribute our products, **do not hesitate to contact our sales team**:

[contact@ibjb.fr](mailto:contact@ibjb.fr)

*«To me, research means methodically observing the world around us to better know and understand it. It is bringing together our knowledges to draw conclusions and innovative applications originating new tools, to the greater benefit of the humanity and its well-being.»*

**Dr Marc MENU, CEO of IBBJ**

# IMMUNOHEMATOLOGY - BLOOD GROUPING

IBJB has a historical know-how in immunohematology (IH). It thus produces reagents and controls for blood grouping for both plate / tube and microplate techniques, in manual or automated method, distributed and used within France and abroad, sometimes in partnership with other manufacturers and distributors of the sector.

## 1. Reagents for phenotyping ABOD, Rh, Kell (for slide / tube testing)

Designation	Conditioning	Réf.
<b>Monoclonal reagents forward grouping</b>		
Anti-A IgM Clone 26A2	5 ml	102010163
Anti-B IgM Clone B2A22	5 ml	102010263
Anti-AB IgM Clones A95B2+A90/16+ES15	5 ml	102010383
Control Serum	5 ml	102020543
Anti-D Trident IgG+IgM Clones TH28+MS-26	5 ml	102020463
Anti-C IgM Clone MS-24	5 ml	102030163
Anti-c IgM Clone MS-33	5 ml	102030263
Anti-E IgM Clone NaTH110-1D6	5 ml	102030383
Anti-e IgM Clones MS-16+MS-21+MS-63	5 ml	102030463
Anti-Kell IgM Clone MS-56	5 ml	102050263
Anti-A1 IgG (tube technique) Clone NaM1-1C9	5 ml	104010144
Anti-H IgM Clone NaM19-7E11	5 ml	104020144
<b>Red cell for reverse grouping (5%)</b>		
Red blood cells (5%) – phenotype A <sub>1</sub> and B <sup>1</sup>	2 x 5 ml	107010363
Red blood cells (5%) – phenotype A <sub>2</sub> , O <sup>1</sup>	2 x 5 ml	107010463

<sup>1</sup> These products of the IBJB range have a shelf life of 5 weeks upon receipt. They are therefore offered in the form of a subscription with a delivery every 4 weeks: a total of 13 deliveries per calendar year on the dates fixed by IBJB.

## 2. Reagents for phenotyping ABOD, Rh, Kell (microplate technique) - on prior study only

In response to specific needs according to the equipment and techniques used by your laboratory, IBBB can offer you a range of reagents for microplate technology. For example, used on Formedics automata "Life Systems", the references below can also be used in manual technique. For any other automated system, and to see how IBBB can meet your specific need, contact us to explore opportunities together.

Designation	Conditioning	Réf.
<b>Monoclonal reagents <sup>2</sup></b>		
Anti-A Mono <i>Clone 26A2</i>	5 ml	152210163
Anti-B Mono <i>Clone B2A22</i>	5 ml	152210263
Anti-AB Mono <i>Clones 9113D10+152D12</i>	5 ml	152210363
Anti-D IgM <i>Clone MS-201</i>	5 ml	152220443
Anti-D IgG + IgM <i>Clones TH28+MS-26</i>	5 ml	152220463
Anti-C Mono <i>Clone MS-24</i>	5 ml	152230163
Anti-c Mono <i>Clone MS-33</i>	5 ml	152230263
Anti-E Mono <i>Clones MS-80 + MS-258</i>	5 ml	152230363
Anti-e Mono <i>Clones MS-16 + MS-21 + MS-63</i>	5 ml	152230463
Anti-Kell <i>Clones MS-56</i>	5 ml	152250263
Control Serum	5 ml	152220543
